

Acoustical Science and Technology
CALL FOR PAPERS: Special Issue on Spatial Hearing

Editorial board, ASJ

In commemoration of “The 5th Joint Meeting of the Acoustical Society of America and the Acoustical Society of Japan”, the Acoustical Science and Technology (AST) is currently accepting manuscripts for a Special Issue on “Spatial Hearing.” The focus includes any topics on fundamentals and applications on spatial hearing.

Potential topics include, but are not limited to:

- Perception of spatial attribute of a sound image
- Head-related transfer function
- Dynamic cues for localization
- Binaural sound reproduction
- Multi-channel sound reproduction
- Spatial audio for virtual and augmented reality

To submit your paper, please visit <http://www.asj.gr.jp/eng/link-ml/01.html>, where you will find the instructions for authors (submission and subscription [pdf]). Manuscripts should be sent to the Editorial Board of AST by e-mail (e-mail address: LEJ02517@nifty.ne.jp).

Important Dates

Submission deadline

For Paper, Technical Report, and Review: July 1, 2017

For Acoustical Letter and Short Note: September 1, 2017

Publication: July, 2018
